

RAHUL CHOWDHURY

- > ANDROID ENGINEER
- > BECAUSE DROIDS ARE COOL

EXPERIENCE

2015 - Present

DriveU | Senior Android Engineer

Created the main consumer-facing app for the company.

Worked on API integration, complex material design and animations, clean architecture, mobile analytics tracking SDKs and app optimization.

Coordinated smoothly across teams to ensure timely delivery of new features and updates to the users.

2016

Magnify for Instagram | App Developer

Conceived the idea for an automated and AI assisted hashtag insertion app for Instagram on Android.

Developed both the app and the backend (using Node.js) and published it to Google Play.

Got featured on major news channels such as The Next Web, XDA-TV, Cosmopolitan, etc.
